

## HOME STUDIES

### PROPERTY GURU AND CITY DWELLER MAGAZINE COLUMNIST CHRISTINE YORATH GIVES HER VIEW ON HOW TO MAKE YOUR HOME STUDY THE PERFECT PLACE TO WORK

Thinking about International women's day led me to thinking about education...the key to freedom.

The train of thought took me to thinking about study at home...for all ages

It can be important to have a separate area for study to other activities and with such a lovely choice of desks around what better excuse?

Of course desks can be for children's homework or the householders domestic area for paying bills as well as cleaning and cooking.

So many people now continue their education informally with research on day to day queries on the internet by P.C. or on a tablet and experts agree

this should be done away from the area of sleep so a home office or just a desk area to be able to designate a "zone" for the activity makes sense.

For those of us who prefer the original version of a book to a kindle books can be part of a stylish home décor which is far better, in my opinion, than storing them out of sight in boxes in the garage!

There is so much choice around and there's no need to break the bank with the Porado Flavia desk at over £16,000!!

If education is the key to unlock the golden door of

freedom you may as well do it with style!

*Till Next Time,  
Christine*
